

AQMD Rule 1480

AB 617 ~ 1426 ~ 1469.1

National Ambient Air
Quality Standards

NAAQS

CA in Non-Attainment for
decades

8,000' to 10,000'

Mountains hem us in

85+ % contaminants from
mobile sources

AQMD controls only
stationary sources

AQMD

- MATES Studies show freeway concentrations AQMP's drive future rulemaking to continue lowering emissions (from stationary sources)
- AB 617 (+AB 134 funding)
Environmental Justice
COMMUNITY AIR
MONITORING provides
\$107.5 million to AQMD
Funding authorized for next 30
years CA ARB hired 200 new
employees

AQMD

- OEHHA has adopted a flawed 70+ year old study to proclaim CR6 a risk at $<1\text{ng}/\text{m}^3$

- OSHA set limit at 5mg/m³
(5,000 times higher)
- New “safe” limit approaches
background levels
- New requirements under 1480
~ 1426 ~ 1469.1

AQMD

- Proposed Rule 1480 - Ambient
Monitoring and
- Sampling of Metal Toxic Air
Contaminants
